Dear Matt,

This is a summary of the topics discussed yesterday.

1) Project Charter

We read the Project Charter together and included Jim Prior as a Client Staff consultant.

The final version is attached. We kindly ask you to confirm it is approved.

2) Prototype UI

We navigate the prototype pages to evaluate the functional requirements.

2.1) Large Screen Display

The presented working solution, where the sites and colors where shown over a GoogleMap, has a functional limitation on Desktops/Laptops: no rotation. IPM Team clarified that it is expected that the sites extend the entire screen.

The Capstone Team will study an alternative solution that attends this requirement.

2.2) Reservation, Registration and Payment

The Capstone Team took notes on the first IPM Team comments about these pages: fields and buttons to be included, placed differently, etc.

IPM Team will review these pages again during the next days and will return the final comments until next Thursday.

The prototype UI is available at <http://www.alvm.com.br/ipmrvpark> .

3) Test Environment

The Capstone Team clarified the importance of having a test environment for the system. IPM Team will provide the servers addresses, users and passwords to upload the test application (.NET 4.0) and test database (MySQL 5.6)

Please, let me know if you want to add or correct something.

Best regards,
Alfredo Morgado.

Hi Alfredo,

I have set up web space hosting for the RV Park Program.

Domain Name: www.goplowing.ca (temporary)

Web Server: IIS (Windows)

Application Server: [ASP.NET](#) 4.0

Database Server: MYSQL 5.6

Database:

Server: mysql6.loosefoot.com

Name: rvpark

Username: conestoga

Password: Eh6teiva

FTP:

Host Address: www.goplowing.ca

User: rvpark

Password: Oovai6ph

If there is anything else you need, do not hesitate to ask.

Jim
